

This is in regards to your plan to weaken Wisconsin's do not call list. I feel we have a right to stop the telemarketing calls to our home and business. I have been a victim of marketing fraud, but I was lucky to have the problem solved, many other people are not that fortunate. I also work with the elderly and have seen many of these people become victims. Your idea to change Wisconsin's do not call list will be a huge mistake. Obviously, anyone involved in this change has not had the problems with telemarketers that I have seen. I urge you to think about the people who are taken in by scams and bogus sale pitches over the phone, especially the elderly.
